## ABOUT ME

I'm a full-stack software developer currently working remotely with an emphasis on front end web development. A former digital communications specialist, my love of coding has grown from a passive interest to a full-fledged passion. Now I'm enjoying learning and challenging myself at every opportunity.

## RECENT PROJECTS

### Stoic Wisdom

PostgreSQL, Express, React, Node, TailwindCSS

Website and API that showcases quotes from the great stoic thinkers. Additional features include natural language processing, full-text search, and Mailgun integration.

### Covid-19 Tracker

React, Chart.js, Material UI

React app that makes an API call to display the latest Covid-19 statistics.

### Other Projects

Javascript, Ruby, Rails, HTML, CSS, TDD

Miscellaneous tech tests, tutorials, experiments and small projects can be found on my public Github.

## PROFESSIONAL EXPERIENCE

### Front End Developer

Percipio

May 2020 - Ongoing London/Remote

Building websites and apps for UK Education and Government Technology sectors, contributing to the development team and implementing UX and information design.

### Various Digital Communications Roles

Jun 2014 - Ongoing Sydney/Melbourne/Brisbane

- Australian Army Reserve (Captain, Public Affairs Officer): Generated a range of communications material, including; media alerts, releases, training packages, video and photography.
- Australian Labor Party: Exceeded digital engagement targets by maintaining organic social reach at over 2 million views per week.
- Australian Republic Movement: Deployed a digital marketing architecture that increased membership by 3000% over 2 years.
- Australian Workers' Union: Managed digital campaigns, social media and stakeholder engagement.

## TECH SKILLS

React Redux Vue Node.js Express  
Ruby Rails Craft CMS TailwindCSS

Docker PostgreSQL MongoDB APIs  
AWS Git Heroku

Agile methodology Pair programming  
Test-driven development

## CERTIFICATIONS

### Modern React with Redux

Udemy course by Stephen Grider

2020

Including NPM, Webpack, Babel, and ES6/ES2015 Javascript syntax

### MERN Stack Front to Back

Udemy course by Brad Traversy

2020

Full Stack React, Redux and Node.js

## EDUCATION

### Software Developer Graduate

Makers Academy

Dec 2019 - Mar 2020

Selective 16-week coding course on software engineering fundamentals.

### Juris Doctor

The University of Melbourne

Jan 2010 - Mar 2013

Law Degree - admitted to practice 2015

### Bachelor of Commerce

The University of Sydney

Jan 2007 - Dec 2009

Majors in Economics and International Business
