## ABOUT ME

I'm a full-stack software developer with a background in digital communications and strategy. I recently graduated from the Makers Academy software development course where I developed my coding process and techniques.

## RECENT PROJECTS

### Personal Portfolio Site

React, Material-UI, Jest, CSS, Netlify

Please visit [davemcgregor.me](http://davemcgregor.me) for additional information and a full list of projects.

### WanderList

Ruby, Rails, JavaScript, Jasmine, PostgreSQL, RSpec, Capybara, Travis CI, Heroku, Code Climate

Users can save their favourite walking routes, search routes nearby and vote for their favourites. This project utilises the Google Maps, Directions and Places APIs.

### Covid-19 Tracker

React, Chart.js, Material-UI

React app that makes an API call to display the latest Covid-19 statistics.

### React Chat App

React, Node.js, Socket.io, Heroku, Netlify

Real-time react chat app that allows users to join rooms, send and receive messages.

## PROFESSIONAL EXPERIENCE

### Public Affairs Officer

Australian Army Reserve

Jan 2018 - Ongoing Remote

Generated a range of communications material, including; media alerts, releases, training packages, video and photography product.

### Various Digital Communications Roles

Jun 2014 - Jun 2019 Sydney/Melbourne/Brisbane

Accomplishments:

- Australian Labor Party: Exceeded digital engagement targets by maintaining organic social reach at over 2 million views per week.
- Australian Republic Movement: Deployed a digital marketing architecture that increased membership by 3000% over 2 years.
- Australian Workers' Union: Managed digital campaigns, social media and stakeholder engagement.
