ABOUT ME

I'm a full-stack software developer currently working remotely with an emphasis on front end web development. A former digital communications specialist, my love of coding has grown from a passive interest to a full-fledged passion. Now I'm enjoying learning and challenging myself at every opportunity.

RECENT PROJECTS

Hiit Workout Generator

React, Redux, Tailwind CSS

App that creates a list of random exercises and provides a countdown timer with sounds. Built using Redux to keep fit while the gyms are closed for COVID-19.

Stoic Wisdom

PostgreSQL, Express, React, Node, TailwindCSS

Website and API that showcases quotes from the great stoic thinkers. Additional features include natural language processing, full-text search, and Mailgun integration.

Other Projects

Javascript, Ruby, Rails, HTML, CSS, TDD

Miscellaneous tech tests, tutorials, experiments and small projects can be found on my public Github.

PROFESSIONAL EXPERIENCE

Front End Developer

Percipio

May 2020 - Ongoing London/Remote

Building websites and apps for UK Education and Government Technology sectors, contributing to the development team and implementing UX and information design.

Various Digital Communications Roles

Jun 2014 - Ongoing Sydney/Melbourne/Brisbane

- Australian Army Reserve (Captain, Public Affairs Officer): Generated a range of communications material, including; media alerts, releases, training packages, video and photography.
